

Founded in 1963, Copeland Oaks embodied many concepts that were considered cutting edge for the time. One of those founding beliefs was that no resident would be asked to leave the community for financial reasons. That concept is embodied in the **Copeland Life Care Fund**— a commitment shared by Copeland Oaks and The Oaks Foundation.

Copeland Life Care is a concept that makes Copeland Oaks unique. If a resident outlives their financial resources, **The Life Care Fund** will provide the help they need to continue living in their home with peace of mind, dignity, and security.

Over \$800,000 of charitable care was provided to residents through the Copeland Life Care Fund in 2017
